

# APPLY POWER. CONNECT. GO TO WORK.

AgPilotX has three wireless components, making it easy to install and simple to use. Reduce the clutter and remove the complexity.

**Contact your Local dealer NOW!**

# WANT TO SEE HOW YOUR APPLICATIONS ARE GOING?

AgPilotX can be used with AgHippo Live, our real-time tracking service, to know where your aircraft are and see real-time ETAs.

**Spend more time in the air and less in the office.**

AgPilotX interfaces with third party software to allow for workorder creation to appear at AgPilotX and the resulting verification maps to be instantly pushed back to third party software.

**Simple. Wireless. Effortless.**

**Learn more at [www.agpilotx.com](http://www.agpilotx.com)**

**Engineered for Control. Developed for Transparency.**

Certified Apple Distributor. Insero products are designed, manufactured, and assembled in the USA.
