

AgOtter

MONITOR IT

See Everything. Time. Acres. Coverage.
Data. Live.

CONTROL IT

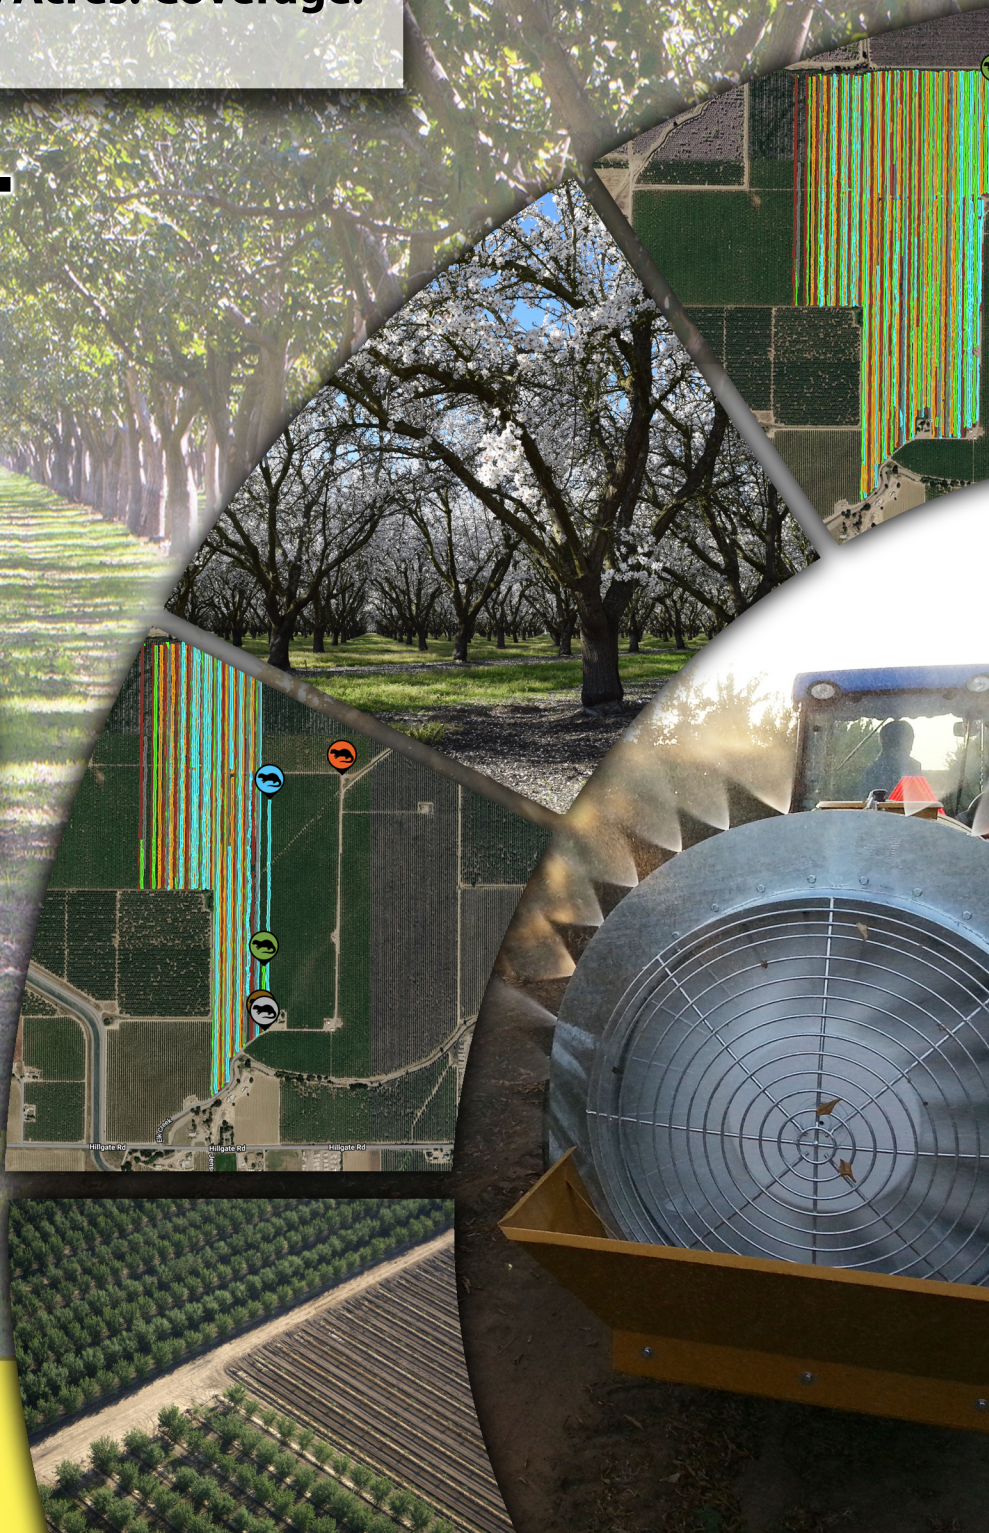

Locked-in rate.
Any speed.
Set it. Run it.

TRACK IT

Real-time visibility.
Instant alerts.
Zero surprises.

DON'T WORRY ABOUT IT

Heavy canopy?
Doesn't matter.
GPS drops?
Keep spraying.
Always on.

CONTROL COSTS. PROTECT MARGINS. PROVE YOUR WORK.

Problem

SPEED CHANGES OR ROUGH TERRAIN?

PLUGGED NOZZLES OR FILTER ISSUES?

TOO MUCH TIME RELOADING OR DRIVING AROUND?

SPRAYER COMPATIBILITY?

HEAVY CANOPY BLOCKING GPS?

EASY TO RUN?

NEED TO SEE IT LIVE?

REGULATORY COMPLIANCE?

The AgOtter Solution

AGOTTER AUTOMATICALLY ADJUSTS FLOW TO MAINTAIN THE EXACT RATE YOU SET — REGARDLESS OF GROUND SPEED OR PRESSURE SWINGS. UNIFORM APPLICATION. FIELD AFTER FIELD.

SEE LEFT-TO-RIGHT VARIANCE IN REAL TIME. GET ALERTS IMMEDIATELY AND REVIEW DAILY PERFORMANCE LOGS TO CATCH PROBLEMS EARLY.

AgHippo Live TRACKS SPRAY TIME, IDLE TIME, & TOTAL ACRES APPLIED. KNOW WHERE YOUR TIME GOES — AND TIGHTEN IT UP.

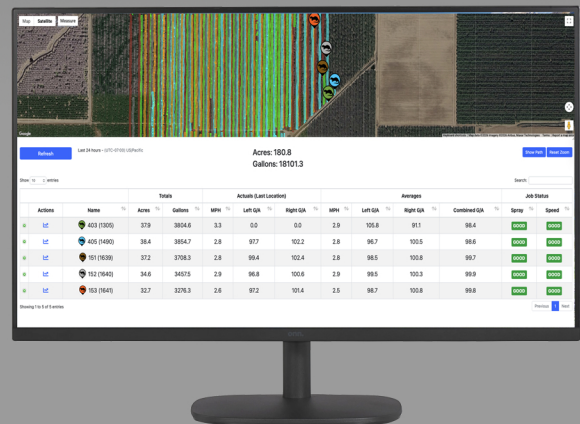

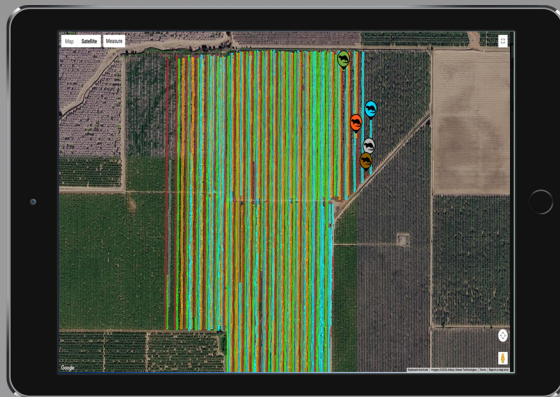

WORKS ON VIRTUALLY ANY LIQUID SPRAYER — ORCHARD, VINEYARD, OR FIELD.

AGOTTER USES PATENTED TRACKING TECHNOLOGY THAT COMBINES INERTIAL AND MAGNETIC SENSORS WITH GPS/GNSS POSITIONING. IF SATELLITE SIGNAL DROPS UNDER DENSE CANOPY, LOGGING, MAPPING, AND RATE CONTROL CONTINUE UNINTERRUPTED.

USE AN IPHONE OR IPAD AS YOUR SPRAY CONSOLE. SIMPLE SETUP. CLEAR VISIBILITY. FULL CONTROL.

CONNECT TO AGHIPPO LIVE TO MONITOR APPLICATIONS IN REAL TIME FROM ANY WEB-ENABLED DEVICE.

APPLY THE PRESCRIBED RATE — AND PROVE IT WITH RECORDED DATA.

POWERED BY INSERO'S PATENTED UNDER-CANOPY DATA TRACKING FOR
PROOF-OF-APPLICATION REPORTING — ORCHARD ISN'T A MODE FOR US, IT'S THE STANDARD.
